SUMMARY

Supply chain and logistics analyst combining hands-on shipping operations experience with data analytics training. Skilled in SQL, Python, and Tableau for validating shipment data and building dashboards that support inventory, fulfillment, and carrier performance decisions. Background spans shipping coordination, compliance-driven data validation, and statistical analysis of large operational datasets. Currently pursuing a Master of Science in Analytics at Georgia Tech. Authorized to work in the US without sponsorship.

TECHNICAL SKILLS

Logistics & Operations: Shipment tracking, carrier coordination (UPS, FedEx, freight/LTL & FTL), shipping documentation, inventory/order status logs, compliance & signature verification

Data Tools: SQL, Python, R, Tableau, Power BI, Excel

Other Tools: Git, Jira

Core Skills: Data cleaning, dashboard design, statistical testing, cohort analysis, ETL, data storytelling

EXPERIENCE

Shipping Office Clerk | Quanta, Fremont, CA

Jul 2026 – Present

- Coordinate outbound shipments daily by preparing and emailing shipping labels to carriers (UPS, FedEx, AIT) and confirming pickup and delivery status across 10+ shipments per day.
- Measure and record shipment dimensions to ensure accurate carrier documentation and rate/compliance validation.
- Maintain daily shipment logs tracking order status from pending to shipped, cross-referencing order numbers across multiple carriers to catch discrepancies.
- Follow up on outstanding and prior-week shipments, resolving issues such as missing driver signatures and confirming proof of delivery.
- Process full truckload (FTL) shipments, including seal number documentation, to support shipment traceability and compliance.

Tax Preparation Intern | Nguyen Thu Tax Solutions, CA

Jan 2026 – Apr 2026

- Processed 40–80 individual tax returns weekly using Drake Tax Software, validating financial data from W2s, 1099s, 1099-Rs, and gambling income forms while meeting IRS filing deadlines.
- Performed IRS due diligence and compliance reviews, including Form 8867, dependent verification, tax credit eligibility checks, and client identity/document verification to support fraud prevention and regulatory compliance.
- Managed client-facing operations by resolving return discrepancies and processing payments and return finalization to improve filing efficiency and accuracy.

Public Health Data Analyst Extern | Public Health Analytics, Remote

Oct 2025 – Dec 2025

- Analyzed 2.2M CDC PLACES and SDOH records to identify trends in hypertension and cholesterol.
- Cleaned and merged multiyear public health datasets using Python.
- Ran paired t-tests and chi-square tests to compare 2018 vs. 2022 prevalence.
- Built an interactive dashboard to communicate findings to non-technical audiences.

Front-End Intern | Springer Capital, Remote

Apr 2025 – Jul 2025

- Enhanced usability/accessibility for an internal AI platform; refactored code into modular TypeScript components.

PROJECTS

Alameda County Chronic Disease Analysis (*Python, React*)

- Analyzed over 2.2 million CDC PLACES records to examine chronic disease trends from 2018 to 2022, applying chi-square tests, paired t-tests, and logistic regression to identify shifts in obesity, cholesterol, and hypertension prevalence.
- Built an interactive dashboard connecting health outcomes with income, food access, and healthcare access.

Credit Risk Dashboard (*Tableau, SQL, Excel*)

- Identified 17.6% default concentration in high-risk credit grades to model lending risk segmentation and created exportable cohort insights for reporting.

Healthcare HR Dashboard (*Tableau, Python, Faker, Draw.io*)

- Designed pay equity views with synthetic HR data and shipped a clean, repeatable dashboard for HR scenarios.

EDUCATION

Georgia Institute of Technology, Atlanta, GA

MS, Analytics (OMSA) — Expected Jun 2028

California State University, East Bay, Hayward, CA

BS, Computer Science

ACHIEVEMENTS

- Managed club finances as Treasurer of Girls Who Code Club, fostering diversity and inclusion in tech.
- Streamlined office processes as Welcome Center Assistant, automating operations by 65%.
